

THE ACACIA

ELEVATION C

Our Acacia home is our smallest model available, but the high ceilings and open floor plan ensure that it never feels limited. The first floor features a beautiful, extended kitchen island that's perfect for those who love to entertain. There's also space for an office or den on the first floor as well as a half bath for any guests. The second floor features a large master bedroom that includes an expansive, spa-like bathroom with a tub that looks out on the breathtaking Pacific Northwest scenery. There's also a loft on the second floor that can be converted into a bonus room.
