

THE CYPRESS

ELEVATION A

The Cypress is meant to be customizable with all the amenities that you could want in a home. The first floor features a large open-concept kitchen with a gorgeous island that looks out to the family room. There's also a bedroom on the first floor and a full bathroom near the foyer. The second floor includes a loft that can be converted to a bonus room, a plant shelf over the foyer, and a master bedroom complete with a large walk-in closet.
