ELEVATION C

Whether you're having the entire family over or looking for a relaxing at-home retreat, our Magnolia home has plenty of options for how you want to spend your days. You enter through a covered porch into an open foyer with a full bath and a mini-suite right as you walk in. The kitchen looks out on a spacious family room and even opens up to your covered outdoor patio. When you head upstairs, there's an option for a loft or bonus room, as well as a master bathroom that will make your home feel as relaxing as a high-end spa.
